1,718 total volunteers, 9% of whom were licensed medical professionals

Finding Hope in North Carolina

Samantha once pictured a perfect life—girl meets boy, they fall in love, get married, and raise a family behind a white picket fence. But her story took a different turn. After leaving an abusive relationship and struggling with alcohol, she moved back home to start over. A month later, she found herself on the bathroom floor, staring at two pink lines in disbelief. Within an hour, her parents knew. While they reassured her, she could only think, “This can’t be happening.”

Samantha and her daughter Zoey Grace

A week later, her mother brought her to Hand of Hope Pregnancy Center. Samantha walked in with her head down, wishing it were all a mistake. But Stacey greeted her with warmth and reminded her that even if she didn’t feel okay now, one day she would. Stacey patiently talked and prayed with her until Samantha found the courage to see her baby on the ultrasound for the first time, a moment that began to change everything.

Through the women at Hand of Hope, Samantha rediscovered faith, peace, and purpose. They didn’t promise that motherhood would be easy; instead, they promised to walk beside her. Their love redefined strength for her, not in control or survival but in surrender and trust in God.

In 2025, Samantha welcomed her daughter, Zoey Grace—“a new life by grace.” Now a year sober, she continues visiting Hand of Hope each week, grateful for the family and faith that helped her turn fear into hope and pain into purpose.

NOTES:

- We are grateful to Care Net, Heartbeat International, and the National Institute of Family and Life Advocates for their contributions towards data collection from their affiliated U.S. pregnancy centers.
- Value of services is based upon materials and services provided by 99 pregnancy centers in the state of North Carolina in calendar year 2024. At least 37 of the centers reporting data received state or federal funding in 2024.
- Total savings are calculated based on cost estimates of services, classes and baby items provided to clients. The sources for the cost estimates and valuation of items and services can be found in the Methodology section of the 2024 CLI national pregnancy center report, “Pregnancy Centers: Rising to the Occasion with Unwavering Care” (<https://lozierinstitute.org/pcr/>), except for the following state-specific labor costs.
- The North Carolina mean hourly wages referenced are as follows: Social Workers in local/state government is \$34.87 per hour - BLS OES code 21-1029, Registered Nurses is \$41.48 per hour - OES code 29-1141, and Diagnostic Medical Sonographers is \$40.72 per hour - OES code 29-2032.
- The estimated savings does not include housing and other monetary assistance provided to some clients. We advocate for our clients by networking with hundreds of county, state and non-profit social service organizations around the country. We cannot quantify the value of emotional support given to the women we help through phone calls and caring volunteers.
