Appendix B – 8 Shield Laws in States that Ship Abortion Drugs into Pro-Life States

	<p align="center">What Shield Law says About Licensure and Location</p>
<p>California</p>	<p>SB 345, 2023 – “ ‘Legally protected health care activity’ means any of the following...The provision of reproductive health care services...by a person duly licensed under the laws of California or the coverage of, and reimbursement for, [such services], if the service is lawful under the laws of California, regardless of the patient’s location...”</p>
<p>Colorado</p>	<p>SB 23-188, 2023 – “ ‘Legally protected health-care activity’ means...the provision of...reproductive health by a health-care provider licensed in this state and physically present in this state, the services and care are considered a ‘legally protected health-care activity’ if the service or care is lawful in this state, regardless of the patient’s location.”</p>
<p>Maine</p>	<p>HP 148, LD 227, 2024 – “ ‘Legally protected health care activity’ means...the provision of...reproductive health care services that are authorized under the laws of this State and that are provided in accordance with the applicable standard of care by a health care practitioner licensed under the laws of this State and physically present in this State, regardless of whether the patient is located in this State or whether the health care practitioner is licensed in the state where the patient is located at the time the services are rendered.”</p>
<p>Massachusetts</p>	<p>HB 5090, 2022 – “ ‘Legally-protected health care activity’ ... the provision of such a health care service by a person duly licensed under the laws of the commonwealth and physically present...for such services shall be legally protected if the service is permitted under the laws of the commonwealth, regardless of the patient’s location...”</p>
<p>New York</p>	<p>SB 1066B, 2023 – “ ‘Legally protected health activity’ shall mean and include...the provision of such reproductive health services by a person duly licensed under the laws of this state and physically present in this state...if the service or care is permitted under the law of this state, regardless of the patient’s location.”</p>
<p>Rhode Island</p>	<p>H2262B, 2024 – “ ‘Legally protected health care activity’ means...the provision of...reproductive health care services that are permitted under the laws and regulations of this state and that are provided in accordance with the applicable</p>

	standard of care by a person properly licensed under the laws of this state and physically present in this state, regardless of whether the patient is located in this state or whether the person is licensed in the state where the patient is located at the time the services are rendered.”
Vermont	H.89, 2023 – “ 'Legally protected health care activity' means... the exercise and enjoyment, or attempted exercise and enjoyment, of rights to reproductive health care services...secured by this State, provided that the provision of such a health care service by a person duly licensed under the laws of this State and physically present in this State ... shall be legally protected if the service is permitted under the laws of this State, regardless of patient’s location...”
Washington State	HB 1469, 2023 – “It is the public policy of Washington to protect the provision of protected health care services that are lawful in the state of Washington by a person duly licensed under the laws of the state of Washington...regardless of the location of the person receiving the services.”

Appendix C - Tables 1-5 - General Findings Regarding the Process of Ordering Abortion Drugs From Different Online Abortion Providers

	A	B	C	D	E	F	G	H	I	J	K	L	M	N
1	Table 1 - Virtual-Only Organizations	Utilizes Out-of-State Shield Laws	Max Gestational Age	Age Requirement	Video Visit Required For Consult	Telephone Contact Available for Medical Care or Consultation	Advanced Provision Allowed	ID Required	States Served	Does the Website Encourage Lying to ER About Taking Ab. Drugs	Partnering Pharmacies	Process of Ordering Drugs	What Questions Do the Public-Facing Eligibility Intake Forms Ask	Notes
2	The MAP: Cambridge Reproductive Health Consultants	Yes	<11	16+	No	No	Yes	Doesn't say	All U.S. States	Yes	Doesn't say	<ol style="list-style-type: none"> 1. Patient completes eligibility intake form to request drugs 2. Abortionist reviews eligibility form and decides if the woman is eligible for mail-order abortion 3. If she is eligible, organization emails intake and consent forms to woman ordering the drugs 4. Org. review forms 5. Woman completes payment and sometimes the org. requests additional info and/or in-person ultrasound 6. The org. ship drugs and woman takes abortion drugs 7. Woman completes online questionnaire after abortion drugs are taken 	<ol style="list-style-type: none"> 1. Contact info 2. Last menstrual period (LMP) 	Uses Massachusetts shield law
3	Aid Access	Yes	<14	No	No	No	Yes	Depends on state	All U.S. States	Doesn't say	Doesn't say	<ol style="list-style-type: none"> 1. Org. will ask questions about requesting woman's health and pregnancy history 2. Org. does a medical review of original intake form and determines eligibility 3. If she is eligible, woman will be sent a link for payment 4. Drugs are shipped 5. Woman takes the drugs 6. Woman is responsible for contacting Aid Access to confirm that the abortion drugs resulted in an abortion 1-2 weeks after taking the drugs 	<ol style="list-style-type: none"> 1.Asks for LMP and the woman's age 2. Asks about medical conditions (adrenal failure, hemorrhagic disorder, porphyrias, allergies), medication history, and pregnancy history 3. Woman signs patient agreement 	Providers licensed in multiple states refer questions during/after abortion to miscarriage and abortion hotline, can still continue with the intake form if one says they've had a previous ectopic pregnancy (there is a medical warning).
4	We Take Care of Us	Yes	<13	No	No, available	No	Yes	No	All U.S. States	Doesn't say	Doesn't say	<ol style="list-style-type: none"> 1. Complete online request form with questions about medical history and pregnancy. If the woman is eligible, the form automatically approves the woman at the end of the form and she can decide to pay and receive the drugs, ask questions before paying, or come back later. 2. Collect name and shipping address 3. Payment 4. Home delivery 5. Woman is invited to join messaging application where the org. uploads care instructions and provides women with 24/7 messaging services 6. Org. checks in 2 and 5 weeks after the order is processed 	<ol style="list-style-type: none"> 1. Who is ordering the abortion drugs (the woman or someone else on her behalf) 2. If the woman has had an ultrasound; and if not, there are questions about the woman's last period 3. Medical history and previous pregnancy history 	If a woman says that she doesn't know when her last period was, the intake form will not allow her to go forward with her request for abortion drugs, but you can go back and change your answer.
5	A Safe Choice	Yes	<13	No	No, available	Yes	Yes	No	All U.S. States	Doesn't say	Doesn't say	Can do optional consultation either by phone or online form	doesn't say	oesn
6	Choices Rising	Yes	<12	15+	No	Yes	Yes	Yes	All U.S. States	Doesn't say	Doesn't say	<ol style="list-style-type: none"> 1. Complete online questionnaire about pregnancy and medical history, upload ID card, and pay 2. Org. reviews request within 12-24 business hours 3. Complete registration process and create patient portal account where the woman completes the required consent forms and can message the org. 4. Org. prescribes abortion drugs and the drugs are shipped 	The date of the woman's LMP, positive pregnancy test, or ultrasound report if available.	No advanced provision as of 2024, Based in Humboldt County, CA.

1	Table 4 - E-Commerce Websites	Is There a Gestational Age at Which the Website Will Stop Shipping Drugs to Women?	Prescription Required?	Website Based out of	Consultation Required, Available, or NA	Additional Support	Ships to	Age Requirement?	ID Required?	Pills in Advance?	Any Doctor Interaction?	Does the Website Claim to be Selling FDA-Approved/Certified Abortion Drugs?	Notes
2	Life Easy on Pills	No	No	Phone area code is in India	No	No	"Well over 35 countries"	No	No	Yes	Claims to have the ability to make an appointment with a gynecologist but there is no link, number, etc.	No	Claims there are stores in Virginia and Nevada. The associated doctor is Solomon Joy, who describes the website as a medicine supplier from India.
3	Private Emma	No	No	India	No	No	Anywhere	No	No	Yes	No	No	Openly "disguises" abortion drugs as a period massager. Claims to require an intake form (then says the approval is typically instant), but then there is a link to buy directly without filling out the form. That link takes purchasers to a page where one can buy a period cramps massager, which is actually the drug on a different website (Comfy Belt, Shopify). Claims to be US-based with US support.
4	Pill Pulse	No	No	Website lists address in Los Angeles, California, but phone contact is from India	No	No	Anywhere	No	No	Yes	No	No	Los Angeles address listed on website but the phone number listed has an India area code.
5	Medside 24	No	No	Doesn't say	No	No	Anywhere	No	No	Yes	No	No	Purchase options list different gestational ages depending on the package, but there is no way to verify gestational age when purchasing the abortion drugs.
6	ybycmeds	No	No	Address on website is Sanborn, New York	No	No	Anywhere	No	No	Yes	No	No	The listed NY address is a business park, according to Google. Website says, "In countries like the United States, Canada, and the UK, it's recommended to consult with a healthcare provider before purchasing abortion pills, even if they are available through legitimate online pharmacies. The provider can help you determine the appropriate medication, dosage, and timeline for your abortion." Purchase options list different gestational ages depending on the package, but there is no way to verify gestational age.
7	Abortion Pills Rx	No	website says they may require a prescription	Plan C says this website ships from UK but contact address is Republic of Seychelles	No. To buy from their website you have to fill out an online form asking about age, medical history, and legality in home country. If you aren't 18+ or if you indicate certain medical conditions you can't proceed, but you could easily lie.	No	Anywhere	Supposedly, 18+	No	Yes	No, besides supposed prescription submission	Yes	The linked Twitter account on the website goes to a profile for James Hoban, based in the United Kingdom, who claims to work with the company. The FB account linked on the website goes to an account called Abpillsrx Harlingen, TX, and the associated address is 2792 Adamsville Rd, Harlingen, TX. The phone number listed on the website has an area code from Miami-Dade County. The FDA has already sent an abuse complaint to the registrar about this website.
8	Abortion Rx	No	website says they may require a prescription	Doesn't say. Appendix released with Cassidy letters says it is based in the Netherlands	No	No	Anywhere	No	No	Yes	No	Yes	Purchase options list different gestational ages depending on the package, but there is no way to verify gestational age. FDA has already sent an abuse complaint to the registrar about this website.
9	Abortion Privacy	No	website says they require a prescription	Doesn't say	No	Live chat available	Anywhere	Supposedly, 18+	No	Yes	No, besides supposed prescription submission	No	Twitter account was suspended for violating platform's rules.
10	Panda Healthcare (used to be abortionpregnancy.com)	No	website says they may require a prescription	England	Optional	Live chat available	Anywhere	No	No	Yes	No	No	Not listed on Plan C; cited in Cassidy letter to Makary as still active. Lists doctors associated with the site, but those doctors (and the website links to social media accounts) are associated with another e-commerce pharmacy not listed on Plan C or in the Makary letter, Your Safe Abortion. The FDA has already sent an abuse complaint to the registrar about this website.

Appendix D - Online Abortion Drug Providers' (Non)Compliance with the FDA's REMS Requirements

	Prescriber Requirements			Patient Requirements	Dispenser Requirements			General FDA REMS Requirements		
	Mifepristone is prescribed by certified prescriber	Certified prescribers can assess duration of pregnancy, ectopic pregnancies	Can provide follow-up surgical intervention or arrange care and be certain patient has access to follow-up care	Prescriber sign/reads patient agreement form and informs patient of risks	Patient must sign/read patient agreement form and read medication guide	Pharmacies must complete pharmacy agreement form	Pharmacies must be able to provide tracking info to patient	Must confirm dispensing of pills 4 days or more after getting prescription is safe with prescriber/provider	Prescribe drugs/take drugs within 70 days of gestation	Does the Organization's Intake Form Screen for all of the Contraindicated Conditions for Mifepristone as Laid out in the Medication Guide?

Appendix E - Screenshots of Websites Selling Unapproved and Misbranded Abortion Drugs

Below are screenshots of the e-commerce websites (and an international online organization) that are currently selling/mailling non-FDA-approved and misbranded abortion drugs to U.S. women.

The screenshot displays the homepage of buyabortionpills.net. At the top, the website's name and logo are visible, along with a list of products: MTP KIT | Mifeprex | Cytolog | Nuvaring | Yasmin | Ovral G | Plan B | Pretest Card. The email address support@buyabortionpills.net is also provided. A navigation bar includes links for Home, About Us, Sign Up, My Account, FAQ's, Contact Us, Blog, Prescription Policy, and Testimonial. A secondary navigation bar features MY WISHLIST, MY CART, CHECKOUT, and LOGIN. The main promotional banner features a woman and the text: "Buy 1 MTP Kit + Get 10 Misoprostol FREE Safe, Easy & Private Medical Abortion Starting at Just \$99". Below this, four icons highlight "Discreet Packaging", "Secure Checkout", "Overnight Delivery", and "24/7 Support". On the left, a sidebar lists "Abortion Pills" (MTP KIT, Mifeprex, Cytolog, Mifepristone and Misoprostol) and "birth control" (Ovral G, NuvaRing). The "About Us" section states: "We at buyabortionpills.net are the leading pharmacy service in providing Quality and Safe branded generics. Our goal to satisfy our client's needs with utmost dedicated drug medications, has patented our service quality globally. At buyabortionpills.net, our customers will be provided with products with FDA approval. We at buyabortionpills.net offer branded and high quality products for all types of medication & every class patients. With the knowledge about Consumer understanding being the most expensive form of service, we never compromise on quality and safety thus fulfilling our customers round the clock every day globally. Our customers can rely on our service with guaranteed satisfaction and trust. We do not entertain sale of any kind of counterfeit products taking into care our consumer's safety and quality needs. Our delivery system stands effective round the clock for our customers offering any time request for safest medicinal products along with the prescriptions and details." The "Reviews" section includes testimonials from Joyce McCormick and Zoe Lambe. A chat bubble at the bottom right says "We're away right now. Ple...".

Get Best Cheap Abortion Pill Online Here On DayNightHealthCare247.Com

DayNightHealthCare247.com alleged as one the best and 100% fulfilment providers throughout the world. We have the finest and absolute solution to the termination of pregnancy at the low priced compared to others. Our service provider works for 24 x7 globally. Consumer health and protection are mandatory; hence, we have come up with an Emergency Contraceptive Pill (i.e. Birth Control Pill) to prevent pregnancy as well as a pregnancy termination pill (i.e. medical Abortion Pill) for safe home abortion methods at an inexpensive cost and with great quality. **Buying Abortion Pill online** with legitimacy and without hesitation. The medical abortion process is the safest abortion method. It is most recommended as first trimester abortion options. This medical abortion method comprises a quality remedy to diminish for termination of early unwanted pregnancy of not more than 9 weeks, devoid of going under any surgical termination of pregnancy procedure and anaesthesia; we have been favored all around the women of the globe to safely postpone pregnancy difficulties through medicine. You (the customer) can choose our Service for clarification of qualms and hesitations to get a healthier substitute of medicine to terminate pregnancy.

Why ordering Abortion Pill online?

Superiority and consistency are the assets of the DayNightHealthCare247.com site, which assist customer health pledge and satisfaction. Since it is an FDA-areed medicine, we assure you about the product's faithfulness and serving our valued users the optimum elucidation. We have turned an eminent site due to the fastest delivery with an arrangement of timely shipping delivery, confidentiality policy, and home delivery that's completely at an affordable price. We are running an online pharmacy to give you door-to-door services.

The Product defines

We are here with a vast number of products to please your service and to solve your problem easily. The products mostly belong to the female health class that comprises Birth Control Pills online (like NuvaRing, Ovral L, Ovral G, Yasmin, Plan B, Yaz, Loette, Diane, Norinyl -1, and pregnancy test kits, etc.) and the online Abortion Pill (like Cytotec, RU486, MTP kit, Mifeprex, etc.)

Boon of using these Medical Abortion Pills online

Today the medical process has become widespread in use for self abortion at home. A woman, who doesn't want to go for the surgical abortion procedure, can follow this medical abortion process for termination of pregnancy only in the condition of early unwanted pregnancy or accidental pregnancy. The demand for non-surgical abortion processes and anesthesia turns the pill abortion procedure more working and easier. Most of the women who used therapeutic Abortion Pills aided positive in the result.

- Harmless and successful
- Less Pain with no use of surgical equipment and anesthesia

pills. With Online Abortion Pill Hx, you can avoid long in-clinic waits and unnecessary travel. Whether you're in London, England, Manchester, Birmingham, Scotland, or anywhere in the UK, or even in the USA, our private abortion pill service puts you in control, providing continuous Online Abortion Pill Rx support throughout your journey.

Our abortion by post UK service delivers medication discreetly and tracked within 24-48 hours. The at home abortion pill kits include step-by-step instructions, pain relief, aftercare guidance, and round-the-clock support in UK or USA. This private medical abortion service is suitable for pregnancies up to 9 weeks and 6 days, provided your complete an in-person consultation to confirm eligibility.

How Does Private Medical Abortion Work?

Most clients qualify for abortion pills at home. Here's a brief overview of how abortion pills work and the process you can expect:

- **Confidential Assessment:** Schedule a phone consultation to review your medical history, and gestation period.
- **Discreet Abortion Pill Delivery:** Your abortion pill order is securely shipped in plain packaging or can be collected from locations in London, Manchester, Birmingham, Reading, and more.
- **Guided Medication Use:** Take 1 mifepristone tablet, followed by misoprostol 24-48 hours later, to complete abortion safely.
- **Recovery and Support:** Our support team checks in ensuring a successful review as an outcome and provides all needed aftercare guidance.

Why Search for Pills by Post in the UK?

Managing your abortion from the comfort of your own home offers maximum privacy at Onlineabortionpillrx in UK. You can book same-day abortion pill online for quick access and get abortion pill at low cost, with private abortion pills starting at discounted rates for eligible individuals.

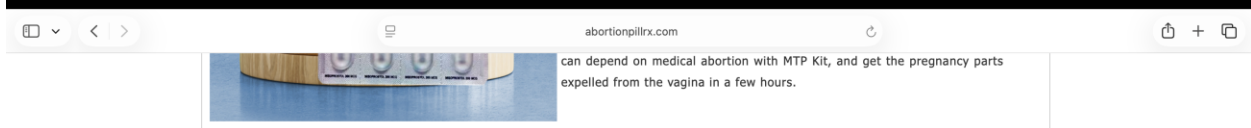

Where to Buy Abortion Pills Online UK and USA?

Abortion pills are not available over the counter or at regular pharmacies in the UK, but you can buy abortion pills online UK from trusted, licensed providers like Online Abortion Pill Rx. It is FDA approved abortion pill following a thorough medical review. All products at Abortionpillsrx.com are safe and FDA-approved. We do not process Order Cancellation Requests if the item ordered has already been approved. No orders will be refunded or cancelled if these are qualified for Express Shipping and Overnight Delivery. MTP kit order online and get Extra Misoprostol Pills Free at Abortionpillsrx.

What Does an MTP Kit Plus Extra Misoprostol Include?

- 1 Mifepristone 200mg tablet
- 4 Misoprostol 200mcg pills (MTP Kit standard)
- Additional 812 Misoprostol 200mcg pills for pregnancies over 5 weeks

This expanded pack supports safe and complete abortion for gestational ages up to 12 weeks, under professional medical guidance.

How Do the Pills Work?

- Mifepristone disrupts progesterone, preparing the uterus to release the pregnancy.
- Misoprostol causes uterine contractions and dilates the cervix, expelling the pregnancy tissue. Bleeding is heavier than a normal period and usually lasts about 12 weeks.
- If you're further along, the additional Misoprostol ensures complete evacuation.

What to Expect During MTP Kit + Extra Misoprostol Abortion

- Cramping and pain due to uterine contractions.
- Heavy bleeding (use large sanitary pads, not tampons or menstrual cups).
- Side effects: headache, nausea, fatigue, dizziness, vomiting
- Watch for excessive bleeding: If soaking two large pads in two hours, seek medical advice or use hemostatic medication

To stay comfortable and safe:

- Keep hydrated and maintain good personal hygiene
- Use pain relief (avoid aspirin, which can increase bleeding)
- Rest and avoid strenuous activities

Mifepristone + Misoprostol

Mifepristone + Misoprostol

★★★★★ (0 out of 5 Star) | 0 Reviews | Customer Question (0)

Mifepristone + Misoprostol – Safe Abortion Pill for Early Pregnancy

Unintended pregnancies can happen unexpectedly—often due to contraception failure, limited access to sexual health education, or situations involving coercion, sexual assault, or rape. Many women face these challenges silently because of social stigma, cultural barriers, or fear of judgment. These circumstances can lead to emotional, physical, and psychological stress.

Mifepristone + Misoprostol, is an FDA-approved combination of medication also known as RU-486, that offers a safe, effective, and non-surgical option for ending an early pregnancy—typically within the first 90 days (13 Weeks). It provides a private and reliable method for women to manage their reproductive health on their own terms, supporting autonomy and informed decision-making during difficult times.

Buy **Mifepristone + Misoprostol** combination pills and get **FREE 1 Mifepristone + 4 Misoprostol Pills Only at Abortionrx.com** for 100% Safe and Effective with Discreet Shipping.

Important: "Always consult a healthcare provider before use, and follow all recommended guidelines to ensure safety and minimize potential side effects."

× Safety Exit

Below is a screenshot of the e-commerce website that falsely advertises abortion drugs as a period cramps massager so they can mail abortion drugs into the United States. Essentially, the website is engaging in deceptive marketing practices.

Appendix F - Black Box Warning in Mifeprex and Mifepristone's FDA Package Inserts

1. The FDA package insert for Danco's Mifeprex drug.

MIFEPREX (mifepristone) tablets Label 2 / 19 110%

FULL PRESCRIBING INFORMATION

WARNING: SERIOUS AND SOMETIMES FATAL INFECTIONS OR BLEEDING

Serious and sometimes fatal infections and bleeding occur very rarely following spontaneous, surgical, and medical abortions, including following MIFEPREX use. No causal relationship between the use of MIFEPREX and misoprostol and these events has been established.

- **Atypical Presentation of Infection.** Patients with serious bacterial infections (e.g., *Clostridium sordellii*) and sepsis can present without fever, bacteremia, or significant findings on pelvic examination following an abortion. Very rarely, deaths have been reported in patients who presented without fever, with or without abdominal pain, but with leukocytosis with a marked left shift, tachycardia, hemoconcentration, and general malaise. A high index of suspicion is needed to rule out serious infection and sepsis [see *Warnings and Precautions (5.1)*].
- **Bleeding.** Prolonged heavy bleeding may be a sign of incomplete abortion or other complications and prompt medical or surgical intervention may be needed. Advise patients to seek immediate medical attention if they experience prolonged heavy vaginal bleeding [see *Warnings and Precautions (5.2)*].

Because of the risks of serious complications described above, MIFEPREX is available only through a restricted program under a Risk Evaluation and Mitigation Strategy (REMS) called the MIFEPREX REMS Program [see *Warnings and Precautions (5.3)*].

Before prescribing MIFEPREX, inform the patient about the risk of these serious events. Ensure that the patient knows whom to call and what to do, including going to an Emergency Room if none of the provided contacts are reachable, if she experiences sustained fever, severe abdominal pain, prolonged heavy bleeding, or syncope, or if she experiences abdominal pain or discomfort, or general malaise (including weakness, nausea, vomiting or diarrhea) for more than 24 hours after taking misoprostol.

Advise the patient to take the Medication Guide with her if she visits an emergency room or a healthcare provider who did not prescribe MIFEPREX, so that the provider knows that she is undergoing a medical abortion.

2. The FDA package insert for GenBioPro's Mifepristone drug.
